BELLA GAIA (Beautiful Earth) is an award-winning, immersive, live multimedia performance, of projected NASA visualizations of Earth from Space, with live world music and dance on stage. Inspired by astronauts who spoke of the life changing power of seeing the Earth from space, award winning director, composer, and violinist Kenji Williams, created this multimedia journey of our world in partnership with NASA, combining stunning NASA imagery of the Earth from space, data visualizations, and stirring live performances of music and dance from around the world, threaded by an orbiting flight path from the International Space Station.
